

2010 vs 2011 Comparisons, Annual SO₂ Emission Rate Changes at Facilities (Coal Units Only) With 10,000 Tons Change Between Years

Note: This map displays changes occurring between 2010 and 2011; many facilities already have advanced controls and low emission rates and therefore show no change. If a unit has not yet reported all four quarters of 2011 emissions data to EPA, it is not included in this map. In areas with a dense concentration of facilities, the facilities on the map may overlap and some may be impossible to see.
